 Routers Electrical circuits ② correct Correct Correct. Software engineers use programming languages to write code. 2. Which of the following can a software engineer use to submit code for review? 3 / 3 point Bug report Morge request MMPs Analysis software ② correct. Correct. You can use merge requests to alert members of your team to new or updated code for their review. 3. Which of the following is an example of a soft skill? ↑ Testing ○ Cloud computing ♠ Agile development ♠ Adaptability ② correct. Correct. It is essential for a software engineer to be adaptable to changing needs of a project. 4. Which of the following tasks is likely to be undertaken by a senior software engineer but not by a junior one? ② besigning solutions ↑ Testing code ○ Writing code ○ Documenting code ② correct. ○ Correct. Senior software engineers often design solutions. 5. Job requirements are a combination of ↑ Hard skills and qualifications ♠ Easy skills and soft skills ♠ Hard skills and personality traits 	1.	Programming languages	1/1 point	
Bug report Merge request MVPs Analysis software Correct. Correct. You can use merge requests to alert members of your team to new or updated code for their review. 1/1 point Testing Cloud computing Agile development Adaptability Correct. Correct. It is essential for a software engineer to be adaptable to changing needs of a project. Which of the following tasks is likely to be undertaken by a senior software engineer but not by a junior one? Designing solutions Testing code Writing code Documenting code Correct. Senior software engineers often design solutions. Jipoint 1/1 point 1/1 point 1/1 point Adaptability and qualifications Easy skills and soft skills Hard skills and soft skills Soft skills and personality traits		 ○ Routers ○ Electrical circuits ✓ Correct 		
 Analysis software Correct Correct Correct Correct. You can use merge requests to alert members of your team to new or updated code for their review. Which of the following is an example of a soft skill? Testing Cloud computing Agile development Adaptability Correct	2.	Bug report Merge request	1/1 point	
 ☐ Testing ☐ Cloud computing ☐ Agile development ⑥ Adaptability ② Correct ☐ Correct. It is essential for a software engineer to be adaptable to changing needs of a project. 4. Which of the following tasks is likely to be undertaken by a senior software engineer but not by a junior one? ⑥ Designing solutions ☐ Testing code ☐ Writing code ☐ Documenting code ② Correct ☐ Correct. Senior software engineers often design solutions. 5. Job requirements are a combination of ☐ Hard skills and qualifications ☐ Easy skills and soft skills ⑥ Hard skills and personality traits 		 ○ Analysis software ○ Correct Correct. You can use merge requests to alert members of your team to new or updated code for their 		
 ✓ Correct Correct. It is essential for a software engineer to be adaptable to changing needs of a project. 4. Which of the following tasks is likely to be undertaken by a senior software engineer but not by a junior one? ● Designing solutions ○ Testing code ○ Writing code ○ Documenting code ✓ Correct Correct. Senior software engineers often design solutions. 5. Job requirements are a combination of ○ Hard skills and qualifications ○ Easy skills and soft skills ● Hard skills and personality traits 	3.	 Testing Cloud computing Agile development 	1/1 point	
 ○ Documenting code ✓ Correct Correct. Senior software engineers often design solutions. 5. Job requirements are a combination of ○ Hard skills and qualifications ○ Easy skills and soft skills ○ Hard skills and soft skills ○ Soft skills and personality traits 	4.	Correct. It is essential for a software engineer to be adaptable to changing needs of a project. Which of the following tasks is likely to be undertaken by a senior software engineer but not by a junior one Designing solutions	? 1/1 point	
 Hard skills and qualifications Easy skills and soft skills Hard skills and soft skills Soft skills and personality traits 		O Documenting code ✓ Correct
